

Assistant Professor (Tenure Track) of Learning and Technology

→ The Department of Humanities, Social and Political Sciences (www.gess.ethz.ch) at ETH Zurich invites applications for the above-mentioned position.

→ Interactive and Digital Technology (IDT) has opened up new opportunities for formal and informal learning in the areas of Science, Technology, Engineering, and Mathematics (STEM). The successful candidate should have a solid background in the cognitive and behavioural sciences and contribute to a better understanding of how IDT supports and affects human functioning and learning. He or she is also expected to be familiar with a broad range of educational technologies, particularly those appropriate for STEM education at universities. At the assistant professor level, commitment to teaching and the ability to lead a research group are expected.

→ Assistant professorships have been established to promote the careers of younger scientists. ETH Zurich implements a tenure track system equivalent to other top international universities.

→ **Please apply online: www.facultyaffairs.ethz.ch**

→ Applications should include a curriculum vitae, a list of publications, a statement of future research and teaching interests, and a description of the three most important achievements. The letter of application should be addressed **to the President of ETH Zurich, Prof. Dr. Joël Mesot. The closing date for applications is 15 February 2020.** ETH Zurich is an equal opportunity and family friendly employer, strives to increase the number of women professors, and is responsive to the needs of dual career couples.
